

CALAFCO Staff Workshop 2019

Thursday, April 11, 2019

Making GIS Work for the LAFCO Layperson

SPATIAL ANALYSIS USING ARCGIS ONLINE

GREG BAZHAW, GIS ANALYST, SANTA CLARA COUNTY DEPARTMENT OF PLANNING & DEVELOPMENT
LAKSHMI RAJAGOPALAN, AICP, ANALYST, SANTA CLARA LAFCO

PLEASE CREATE AN ARCGIS ONLINE ORGANIZATIONAL ACCOUNT BEFORE THE WORKSHOP.

The trial is valid for 21 days so create your account a day or two before the workshop

Step 1. Navigate to the ArcGIS Online trial evaluation page:

<https://www.esri.com/en-us/arcgis/trial>, then fill in the appropriate information and then click on the “Start Trial” button.

Step 2. Check your email for information on how to setup your account. Click on the activation link.

Step 3. Enter a username, password, and organization name (this can be your name). Agree to the terms and conditions and click on the “Create My Account” button.

Welcome Lakshmi Rajagopalan

To complete the activation of your trial, please provide the following information:

Create a New Username
LAKSHMIARJAGOPALAN
It is 100 characters in length, letters and numbers only.

Password: Confirm Password:
Password must be at least 8 characters and have at least one number and one letter.

Email Address
lrgur@yahoo.com

Organization
Specify the name of your organization as you'd like it to appear on the home page and any correspondence with the members of your organization. This name may be modified later as necessary. The name may contain up to 55 characters.
Santa Clara County

Security Question
What is the name of your favorite pet?
Answer: April

Terms of Use
Master Agreement (E204CW)
Revised October 12, 2018
IMPORTANT—READ CAREFULLY
Unless superseded by a signed license agreement between you and Esri, Esri is willing to provide Esri Offerings and Services to you only if you
I accept the terms & conditions
Read the Terms of Use in other languages

Step 4. On the next page specify the organization short name (This can be anything you want), language (English - English), and Region (United States). Click “Save and Continue”.

Spatial Analysis using ArcGIS Online

Thank you for logging in as the administrator of this organization. Please finish setting up your organization by providing the important information below.

Organization name
Specify the name of your organization as you'd like it to appear on the home page and any correspondence with the members of your organization. This name may be modified later as necessary. The name may contain up to 55 characters.

LAFCOTEST

Organization short name
Please specify a short name – an acronym or abbreviation – for your organization. This text uniquely defines the URL to your organization. Carefully consider the name you want to use. The short name may contain up to 16 alphanumeric characters, including hyphens.

LAFCOTEST Available

The URL to your organization's home page will be:
https://LAFCOTEST.Lmap.arcgis.com

Language
Please choose the default language for members of your organization. The choice of language determines the language in which the user interface is presented as well as the way time, date, and numerical values appear. Individual users will be able to customize this choice by visiting their profile page. If you choose Browser Default (and you allow anonymous access), anonymous users will see ArcGIS Online in the locale of their browser. Signed-in users who have configured their language in their profile will display in that language.

language: English - English

Number and date format
US - US

Region
Choose a region to determine the default basemap gallery, the default basemap, and the default extent for new maps for your organization. The region you choose also controls the scalebar, measure tool and routing units. Choosing United States sets the units to miles and feet; any other region choice, including World, sets the units to meters and kilometers.

Note that you can also specify your organization's basemaps and extent by editing the appropriate settings in the Maps tab.

Region: United States

Link
Set up the Contact Us link that appears at the bottom of the page. Use a valid website URL or valid email: link syntax.

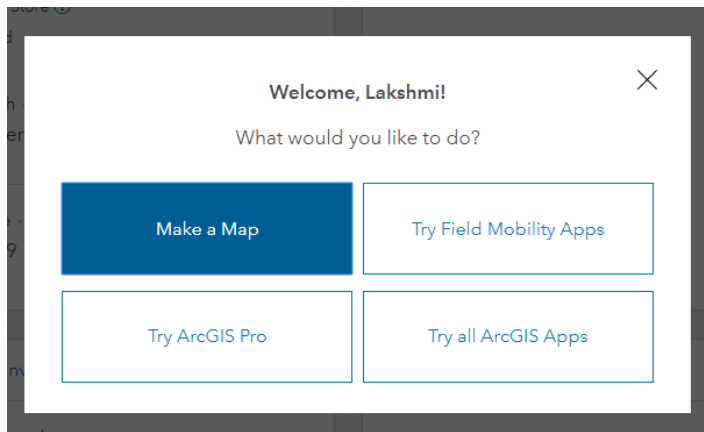

Contact Us: Example: mailto:support@domain.com

Esri User Experience Improvement Program
ArcGIS Online works continually to improve our products and one of the best ways to find out what needs improvements is through customer feedback. The Esri User Experience Improvement program (EUIIP) allows your organization to contribute to the design and development of ArcGIS Online. The program collects information about the usage of ArcGIS Online including hardware and browser characteristics, without interrupting work. The program is completely optional and anonymous; none of the information collected is used to identify or contact members of your organization.

Allow ArcGIS Online to collect usage information from organization members to improve its user experience.

SAVE AND CONTINUE LOG ME OUT, I'LL WORK ON THIS LATER

Step 5. Your organization account is now created and you will get a dialog box like the one below. Click on the “Make a Map” button.

When you click on Make a Map, you will see the home screen with information on members, user types, remaining credits.

Spatial Analysis using ArcGIS Online

The screenshot displays the ArcGIS Online interface for the organization 'LAFCOTEST'. The page is divided into several sections:

- LAFCOTEST Overview:** Shows the organization's logo, subscription ID (5742716429), and system health (All systems operational). It also lists the creation date (Mar 14, 2019) and renewal date (Apr 5, 2019).
- Credits:** Displays the total remaining credits as 400.00. It also shows credits used in the last 30 days (0.00) and the last 24 hours (0.00). A breakdown for the last 30 days shows 0 credits used for Storage, Analytics, and Subscriber content.
- Members:** Shows 1 total member and 0 pending members. A breakdown by user type shows 1 assigned and 1 available Creator, and 0 assigned and 2 available Viewer.
- Add-on licenses:** Lists several add-on licenses with their assigned and available counts:
 - ArcGIS Pro Advanced: 0 assigned, 2 available, 2 total
 - AppStudio for ArcGIS Standard: 0 assigned, 2 available, 2 total
 - ArcGIS Business Analyst Web and Mobile Apps: 0 assigned, 2 available, 2 total
 - ArcGIS Community Analyst: 0 assigned, 2 available, 2 total
 - Drone2Map for ArcGIS: 0 assigned, 2 available, 2 total
