2017 Legislative Priorities

Primary Issues

Authority of LAFCo

Support legislation that maintains or enhances LAFCo's authority to condition proposals to address any or all financial, growth, service delivery, and agricultural and open space preservation issues. Support legislation that maintains or enhances LAFCo's ability to make decisions regarding boundaries and formations, as well as to enact recommendations related to the delivery of services and the agencies providing them, including consolidations, reorganizations or dissolutions.

Agriculture and Open Space Protection

Support policies, programs and legislation that recognize LAFCo's mission to protect and mitigate the loss of prime agricultural and open space lands and that encourage other agencies to coordinate with local LAFCos on land preservation and orderly growth. Support efforts that encourage the creation of habitat conservation plans.

Water Availability

Support policies, programs and legislation that promote an integrated approach to water availability and management. Promote adequate water supplies and infrastructure planning for current and planned growth as well as to support the sustainability of agriculture. Support policies that assist LAFCo in obtaining accurate and reliable water supply information to evaluate current and cumulative water demands for service expansions and boundary changes including impacts of expanding water company service areas on orderly growth, and the impacts of consolidation or dissolution of water companies providing services.

Viability of Local Services

Support legislation that maintains or enhances LAFCo's ability to review and act to determine the efficient and sustainable delivery of local services and the financial viability of agencies providing those services to meet current and future needs including those identified in regional planning efforts such as sustainable communities strategies. Support legislation which provides LAFCo and local communities with options for local governance and service delivery to ensure efficient, effective, and quality service delivery. Support efforts which provide tools to local agencies to address aging infrastructure, fiscal challenges and the maintenance of services.

Issues of Interest

Housing

Provision of territory and services to support housing plans consistent with regional land use plans and local LAFCo policies.

Transportation

Effects of Regional Transportation Plans and expansion of transportation systems on future urban growth and service delivery needs, and the ability of local agencies to provide those services.

Flood Control

The ability and effectiveness of local agencies to maintain and improve levees and protect current infrastructure. Carefully consider the value of uninhabited territory, and the impact to public safety of proposed annexation to urban areas of uninhabited territory which is at risk for flooding. Support legislation that includes assessment of agency viability in decisions involving new funds for levee repair and maintenance. Support efforts that encourage the creation of habitat conservation plans.

Adequate Municipal Services in Inhabited Territory

Expedited processes for inhabited annexations should be consistent with LAFCo law and be fiscally viable. To promote environmental justice for underserved inhabited communities, funding sources should be identified for extension of municipal services, including options for annexation of contiguous disadvantaged unincorporated communities. Promote the delivery of adequate, sustainable, efficient, and effective levels of service through periodic updates of Municipal Service reviews, Spheres of Influence, and other studies.
